*Now I see the secret of the making of the best persons. It is to grow in the open air, and to eat and sleep with the Earth. - Walt Whitman*

In the spirit of Whitman, the Washington County Conservation Board is dedicated to providing quality parks and programs for the public to have this opportunity to “grow in the open air.” We have been maintaining parks and recreational areas since 1962.

Our award-winning educational program, guided by our naturalist, is here to help you better experience the outdoors. Programs include the annual Halloween Hike, the Youth Fishing Derby, other public programs, toddler and preschool programs to enjoy with your child, summer day camps, and programs geared for your group or organization.

Opportunities to enjoy nature abound in county parks, from hunting and fishing to birdwatching and hiking. A wide variety of habitats – including prairie, woodlands, and waters – with their assorted wildlife are found among the different parks.

**Washington County Conservation Education Center is** located at Marr Park, outside of Ainsworth.

Features an Interactive Exhibit Hall, Resource Library, Conference Hall, Laboratory, and Outdoor Classroom.
